MING TONG

MING TONG

Ming Tong has a degree in environmental sculpture from the Tianjin Academy of Fine Arts in China. He has been living and working in Lille (France) since 1994 as an independent artist, specialising in painting, calligraphy and sculpture. He teaches art and sculpture at the Ecole Supérieure d'Art in Tourcoing and Arras since 1996. He also works in conceptions of urban art creations.

Today, Ming Tong is mainly concerned with ceramics because of its affinity with the natural material, especially clay. As a sculptor he likes volume, where roundness goes hand in hand with softness. He takes his inspiration from the basic techniques he developed during his years as a sculptor and through study. His creations are the result of inspiration from both Western and Chinese culture and are characterized by humor, beauty and serenity.

The statues are made of ceramic with a lot of color. The deepness of the color pallet is the result of frequent experimentation with pigments. Moreover, Ming Tong always adds a robust touch of paint in his work.

His career is characterized by various solo and group exhibitions in France, Belgium, Holland and China.

Gallery Famarte Asian art started the collaboration with Ming Tong early 2019 and shows his unique art works at national and international art fairs.

Cover
